

The following changes were released to the live system on January 10, 2017. Please review the release notes below carefully as some changes impact the way the system works. If you have any questions or need clarification on any of the changes, please contact support at 416-961-7884, option 2, or email us at [contact@condocontrolcentral.com](mailto:contact@condocontrolcentral.com).

Related Feature	Change Type	Ref #	Release Notes
<b>Amenity Booking</b>			
	Improvement	PR-150	Added the unit details to amenity approval and cancellation emails. This will enable the administrators to see the unit information of the user who booked the amenity without having to log into the system.
	Improvement	PR-584	Added the ability to link multiple stripe accounts to Condo Control Central workspace. This feature will enable adminstators to link different stripe accounts to different amenities. Administrators can now link different stripe accounts to different features like Amenities, Store and Status Certificate.
<b>Discussion Forum/ Classified Ads</b>			
	Issue	DEV-1615	Addressed an issue with deletion of classified ads. This issue occurred when a user received an error message when trying to delete a classified ad post.
<b>Global Search</b>			
	Issue	DEV-1609	Addressed an issue with search results for Incident reports on global search page. This issue occurred when users tried to open/update an incident report on the results page.
<b>Purchase Order</b>			
	Issue	DEV-1617	Addressed an issue with Purchase order Tax field. This issue occurred when users added characters that are not recognised by the system.
<b>Security &amp; Concierge</b>			
	Issue	DEV-1607	Addressed an issue with incident reports print version showing HTML tags. This issue occurred when users formatted the text in the Update section of the incident reports page.
	Issue	DEV-1608	Addressed an issue with incident reports "Check here if police, fire or other authorities were called". This issue occurred when "Fire department" was selected and the print version would show "No" as the status.
	Issue	DEV-1596	Addressed an issue with automatic download of permits for "My visitors" option. This issue occurred when Owner/resident logs their visitors using the My visitors feature. Now the system will automatically download the permit for the users. Also administrators can now add a message on the My visitors page for the residents to view before creating a parking permit.

Related Feature	Change Type	Ref #	Release Notes
	Improvement	PR-116	Added the ability to release multiple packages for the resident. Users will now see all related packages for a resident when releasing a package. They can select multiple packages and release them all at once. The resident has to sign only once and the signature will be captured for all the selected packages.
	Improvement	PR-489	Added the ability to attach files to Pass-on-logs. Users can create Pass-on-logs with HTML formatting and also attach a file to the pass-on-log.
<b>Unit File</b>			
	Improvement	PR-592	Added the ability to add color codes to individual groups. By Default, all groups shall have black font and white background, Administrators can now update colors for individual groups by clicking on Setup > Groups > Edit button for individual group and select Group Color.
	Issue	DEV-1593	Addressed the issue with Email status for unsubscribed users. Administrator will now see different status for email subscription. Depending on the type of unsubscription, administrators will see the following status messages for the users on the unit file: Unsubscribed, Invalid email, Spam and Bounced email.
	Issue	DEV-1479	Addressed an issue with missing fields on Process Ownership change feature. Administrators can now edit newly created user information. They can also add Authorizations, Fobs, key and Remotes to the new users on the same page.
