

September 16, 2014 Release Notes

The following changes were released to the live system on September 16, 2014. Please review the below release notes carefully as some changes impact the way the system works. If you have any questions or need clarification on any of the changes, please contact support at 416-961-7884, option 2, or email us at contact@condocontrolcentral.com.

Related Feature	Change Type	Ref #	Release Notes
Amenity Booking			
	Bug Fix	DEV-762	Fixed an issue where the "Revise Booking" option was visible to users who didn't have permission to edit bookings.
	Customer Request	DEV-727	Added a legend section to amenity booking to make filtering the calendar easier and more user-friendly.
	Customer Request	DEV-766	Made a change to highlight required / incorrect fields when creating a new booking.
File Library			
	Customer Request	DEV-775	Changed the default setting for new file uploads so that the system does not send email notifications by default.
Look & Feel			
	Bug Fix	DEV-719	Removed the "For Administrators" section from quick links for non-administrative users.
	Bug Fix	DEV-701	Fixed an issue where table headings would not wrap properly. Further fixes are planned for future UI upgrades.
Reports			
	Bug Fix	DEV-758	Fixed an issue where HTML tags were shown in the Task Details report.
	Customer Request	DEV-737	Added a phone number column to the Individuals Requiring Assistance in an Emergency report. The system should now show phone numbers and related types.
	Customer Request	DEV-735	Added a new report to include details for locker numbers in the workspace. The report is organized by unit number.
	Customer Request	DEV-747	Added a new report that returns incident report details from a selected time period.
Security & Concierge			
	Bug Fix	DEV-738	Implemented a change that allows users to search the Security Console using license plates.
	Bug Fix	DEV-743	If you select "I am the first shift" when creating your shift in the Security Console, that selection is now accurately reflected in your shift's details.
	Bug Fix	DEV-751	Fixed an issue where the system would not automatically sign visitors out after their parking permit expired.
	Bug Fix	DEV-756	Fixed an issue that would prevent users from printing their daily shift report when they selected "N/A" in one of the relief fields.
	Customer Request	DEV-659	Made several changes to the overall functionality of the Visitor Parking module.

September 16, 2014 Release Notes

The following changes were released to the live system on September 16, 2014. Please review the below release notes carefully as some changes impact the way the system works. Related Feature	Change Type	Ref #	Release Notes
	Improvement	DEV-577	Made some major revisions to the key checkout functionality. Users can now add and return temporary keys to or from inventory. We have also replaced the drop-down menu with an auto-complete form to accommodate buildings with large numbers of keys.
	Improvement	DEV-721	Made several back-end changes to the visitor parking functionality. The system is now more flexible in handling visitor parking restrictions.
	Improvement	DEV-744	Added two new incident report types to the list of defaults: "Noise complaint - confirmed" & "Noise complaint - unconfirmed".
	Improvement	DEV-746	Made some formatting and visual changes to the Pass-on Log feature.
Unit File			
	Bug Fix	DEV-716	Added comments to the Emergency Contact Details on the user details page.
	Bug Fix	DEV-755	Fixed a bug that would limit the max length for buzzer codes when going through the Process Unit Ownership Change screens.
	Bug Fix	DEV-763	Fixed an issue where (by default) security users could see action buttons in the unit file.
	Customer Request	DEV-720	Added Cayman Islands to the list of countries in the Unit File.
	Customer Request	DEV-745	Added an "Access Card" option to the Key, FOBs, and Remotes section. These records will also show up in the FOB and Remotes report.
	Improvement	DEV-522	Added View and Edit links to the Related Units section of the User Details page.
