Related Feature	Change Type	Ref #	Release Notes
Amenity Booking			
	Bug Fix	DEV-1263	Addressed bug that caused an error while booking an amenity due to start time or end time being captured as blank.
Announcements			
	Bug Fix	DEV-1242	Addressed bug that caused an error while posting an announcment when "TV display" is selected and disclaimer is unchecked.
	Improvement	PR-351	Added the ability to add formating (bold, italics, font, etc) to announcements.
Lobby Display			
	Bug Fix	DEV -1070	Addressed bug that caused units with mulitple outstanding packages to display multiple times on the lobby display instead of once.
Reporting			
	Bug Fix	DEV-1210	Addressed bug that caused time difference between the "visitor parking permit time" and the time on the "visitor detail" report.
	Bug Fix	DEV-1259	Addressed bug that caused "Pet report" data with mixed fields.
	Bug Fix	DEV-1261	Addressed bug that caused "Subject/detail" column on the "Service request summary report" when exported to PDF.
	Improvement	PR-336	Added new report, "Security Log Summary" report, which allows management to summarize security daily logs by security guard and date.
Security & Concierge			
	Bug Fix	DEV-1182	Addressed bug that caused an error while overriding the monthly parking permit limit.
	Improvement	PR-122	Added the ability for Security and Concierge group to create authorizations on behalf of the residents.
	Improvement	PR-218	Added a "Save and New"option for security logs; security guards can now add a new log without having to re-open the window.
	Improvement	PR-321	Added the ability to print package notification slips. This feature allows the users to print a package slip when a new package is received. To enable this feature, go to Setup > Security & Concierge > Print Package Slips.
	Improvement	PR-349	Added the ability to enter the time of occurence when updating a security log. Now the occurred time option can be added while creating a security log along with the logged on time (similar to how Incident Reports operate).
	Improvement	PR-358	Added the ability to "View all users In the unit" beneth the "Who picked it up" field on the Package release page.
