

The following changes were released to the live system on December 21, 2015. Please review the below release notes carefully as some changes impact the way the system works. If you have any questions or need clarification on any of the changes, please contact support at 416-961-7884, option 2, or email us at contact@condocontrolcentral.com.

Related Feature	Change Type	Ref #	Release Notes
Announcements			
	Improvement	PR-232	Added the ability to send post dated announcements. Administrators can now schedule an announcement for a future date by selecting "send later option" on the post announcement page.
Events			
	Improvement	PR-378	Added the ability to format text on the details section when creating a new event.
	Improvement	PR-380	Added the ability to select custom end time for the Events option. Select the custom end time by clicking on Duration > Custom from the events end date option select the time and date.
Lobby Display			
	Improvement	PR-405	Added the ability to display long text announcements on Lobby display. If the announcement is longer than the available space, it will be split into sections and each section will be displayed in order.
Reporting			
	Bug	DEV-1331	Addressed an issue in certain situations where the logged in time of packages and service requests did not match with the report time.
	Bug	DEV-1334	Addressed an issue with task tracking report due date field.
	Improvement	PR-412	Modified the Incident Summary Report to match with the security and concierge incident report print version.
	Improvement	DEV-1352	Added the ability to generate "Service request activity report". The report gives analytical information about the service request activity based on types, number of requests by month, number of request by status and types of request by month.
Security & Concierge			
	Bug	DEV-1303	Addressed an issue with parking permit registered licence plates; an error message may have occurred when issuing a permit to a resident vehicle.
	Bug	DEV-1330	Addressed an issue with paragraph spacing on Incident Report "Print" option.
	Improvement	PR-403	Added the ability to send either text message or voice notifications when a resident receives a package. A text message/voice notification will be sent to the user when there is no email registered on the system, depending on their phone information that is in their unit file record.
Service Request			
	Bug	DEV-1320	Addressed an issue with service request HTML formatting when a user or administrator updates a service request.
	Improvement	DEV-1319	Addressed an issue with service request status and search functionality. A new status option will be available when updating the service request, and administrators can set reminders depending on their requirement.
Setup			
	Bug	DEV-1268	Addressed an issue when modules on the setup page didn't show as unchecked when inactive.

December 21, 2015 Release Notes

Related Feature	Change Type	Ref #	Release Notes
	Bug	DEV-1319	Addressed formatting issue on the Service Request set up page for service request introductory text.
	Improvement	DEV-1335	Increased the word limit for service request introductory text.
	Improvement	PR-282	Added the ability to import Key information for the Security and Concierge Key Checkout feature. Key import is now available under Setup > Keys.
Survey			
	Bug	DEV-1344	Addressed an issue that caused an error when the character limit for the details option on the survey exceeded the limit.
Task			
	Bug	DEV-1308	Addressed an issue with home page Tasks widget. The open tasks filter will no longer display on-hold tasks on the home page.
Tablet			
	Bug	DEV-1354	Addressed an issue in certain situation when user account showed up twice on the tablet due to multiple accounts in different workspaces.
Unit File			
	Bug	DEV-1315	Addressed an issue that occurred when the Owner and Tenant temporary password are the same.
	Bug	DEV-1337	Addressed an issue with email preferences for users to subscribe /unsubscribe from the CCC newsletter.
	Improvement	PR-25	Added the ability to track vacation information owners and residents. Vacation option is now available under User > Vacation. Vacation information will also be available on the Security & Concierge console when logging a new parcel or starting a new shift.
Welcome Page			
	Bug	DEV-1349	Addressed an issue in certain situations which resulted in an error when user tried resetting their password.
