

March 15, 2018 Release Notes

The following changes were released to the live system on March 15, 2018. Please review the release notes carefully as some changes impact the way the system works. If you have any questions or need clarification on any of the changes, please contact support at 416-961-7884, option 2, or email us at contact@condocontrolcentral.com.

Related Feature	Change Type	Ref #	Release Notes
Announcement	Issue	DEV- 1878	Added an extra validation to inform administrators about announcements with no recipients selected. This validation was added after a few clients sent announcements without checking the recipient list or the message after the announcement was posted. This validation will inform the administrators about missing recipients for the announcement they are posting.
Purchase Order	Issue	PR-732	Addressed an issue with Purchase order create page when a line item is missing tax information. This issue was experienced by a few users while creating the purchase order.
Electronic Consent	Improvement	DEV-1853	For Ontario based workspaces, we added the new prescribed electronic consent form. The new form can be activated by clicking on Setup> Electronic Consent> Edit>Form type> Ontario Form.
Unit file	Improvement	PR-727	Introduced the option to share unit file and security console data between linked workspaces. Our current functionality of shared amenity calendar is now extended to both unit file and security console. For all shared workspaces, our new functionality will allow users to perform any action on the unit file and security console without having to switch their workspace.
	Issue	PR-728	Addressed an issue with welcome letter generation for newly created users. This issue impacted workspaces where the new registration codes are being used.
Security and Concierge	Issue	DEV-1854	Addressed an issue with "View complete key list" page. We introduced a new search option on the key list page. As part of the change, the page load of the key list page should be improved.
