April 19, 2018 Release Notes

The following changes were released to the live system on April 19, 2018. Please review the release notes below carefully as some changes impact the way the system works. If you have any questions or need clarification on any of the changes, please contact support at 416-961-7884, option 2, or email us at contact@condocontrolcentral.com.

Related Feature	Change Type	Ref #	Release Notes
Announcement	Issue	DEV- 1866	Addressed an issue with file preview for announcements and file library. Some users recently experienced issues previewing .docx file formats on CCC.
	Improvement	PR-738	Added the ability to send an announcement to "Groups or Units". We have received multiple requests from users about the ability to send announcement emails to "Groups or Units". To better understand how "Groups or units" feature work: Individuals listed as part of the selected group/s or individuals associated with the selected unit/s will receive this announcement. For example, if you want to reach all property managers as well as all users associated with unit 103, select the group "Property Managers" and select unit "103".
Discussions forum and Classified ads	Issue	DEV - 1870	Addressed an issue with the Discussion forum approval process. Some users experienced an issue when they received their first post for approval. Only the first posts were impacted.
Credit card processing	Issue	DEV-1871	Addressed an issue with stripe refund processing. Recently stripe changed their fees for refund processing for all accounts created after September 2017. The new process on our end involves identifying the stripe fee calculations for accounts created before and after September 2017. This change doesn't impact stripe accounts created before September 2017.
Electronic Consent	Improvement	DEV-1872	Added the ability to view the number of units with electronic consent on the setup. As part of usability improvement, we now notify the administrators about who will receive the emails when they initiate a mass e-consent email.
	Improvement	PR-730	Added the ability to track the unit number for the user who consented to the Electronic consent form. Administrators will have the option to see the unit # of the user when they download the form.
Global Search	Issue	DEV-1903	Addressed an issue with Global search. This issue happened when users searched for units with a dash "-". For example, search for unit 1503-1 resulted in an error for the user. This issue is now resolved and users shouldn't receive an error message when they search for units with a dash.
Proxy	Improvement	DEV-1880	Added the ability to remind all users who said "Yes Attending" the meeting on the proxy page. Our system will automatically send a reminder 24 hours prior to the meeting informing the owners about an upcoming meeting and asking them to complete their proxy if they can no longer make it to the meeting.
Registration	Issue	DEV-1917	Addressed an issue with the Self-registration feature. This issue was experienced by a few users when their phone number was not properly added to the system.
Service request	Issue	DEV -1860	Addressed an issue with attachments to Service request and Tasks. All attachments will be ordered by date.

April 19, 2018 Release Notes

The following changes were released to the live system on April 19, 2018. Please review the release notes below carefully as some changes impact the way the system works. If you have any questions or need clarification on any of the changes, please contact support at 416-961-7884, option 2, or email us at contact@condocontrolcentral.com.

Related Feature	Change Type	Ref #	Release Notes
Status page	Improvement	DEV-1895	Introducing the Condo Control Central Status page. Users can now see the status of the system in real time. This option will be available in the footer of the secure site, marketing site and also visible when an error occurs for the user. Link to the status page - http://status.condocontrolcentral.com/
Tasks	Issue	DEV-1899	Addressed an issue with tasks update emails.This issue impacted few users who followed the tasks multiple times. Our system sent multiple emails based on the number of times they followed the tasks. We added a check in the system to avoid any duplication of the tasks followers list.
Unit file	Issue	DEV-1869	Addressed an issue with the emergency contact email address character limit. On the Process ownership change, when creating a new user the emergency contact > email address field character limit is increased.
	Issue	DEV-1894	Addressed an issue with adding attachments to the user page on the unit file. Now administrators can add or delete files on the user page. All files uploaded on the registration page (including the photo id) for the user will show up on this tab.
Security and Concierge	Issue	DEV-1861	Addressed an issue with search on Security & concierge console. As part of our usability improvements, we reduced the default search period from last 90 days to 60 days. We also made changes to improve the speed our search code to provide faster results.
