

The following changes were released to the live system on August 20, 2018. Please review the release notes below carefully as some changes impact the way the system works. If you have any questions or need clarification on any of the changes, please contact support at 416-961-7884, option 2, or email us at [contact@condocontrolcentral.com](mailto:contact@condocontrolcentral.com).

Related Feature	Change Type	Ref #	Release Notes
Amenity	Issue	DEV-1896	Introduced the option to have multiple future amenity booking pricing. Administrators need to contact support in order for this feature to be turned on for their workspace. When turned on, users can add multiple future pricing for the amenity bookings.
Amenity	Improvement	PR-745	Added the ability to charge TAX for amenity bookings. This feature allows administrators to charge provincial taxes for all amenity bookings. Speak with support on how to turn on this functionality.
Amenity	Issue	DEV-2011	Addressed an issue with the approval of Stripe bookings. Some users received an error when approving a booking due to history records not updating quickly during the approval process.
Condo Manager Integration	Issue	DEV-2023	Addressed an issue with Condo Manager Integration. Administrators in some situations received an error when a user without an emergency contact was synced without any contact details. The validation issue is now fixed.
File Upload	Issue	DEV- 2034	Addressed an issue with the multiple file upload option. Users received an error when uploading multiple files on the incident report update section and Multiple file uploads section.
My Account	Issue	DEV-2015	Addressed an issue with off-site address on My Account. Users received an error when the off-site address was missing a postal code validation.
My Account	Issue	DEV-2016	Addressed an issue with off-site address on My Account. Users received an error when adding/updating vehicle information without province details.
Payment System	Issue	DEV-2026	Addressed an issue with Service fee calculation for Payments made through Condo Control Central. Going forward all online payments made on the system using the payments option will be charged \$2 or 1% whichever is higher.
Unit file	Issue	DEV-1976	Addressed an issue with deletion of unit notes. This issue occurred when a unit note type was deleted on the system and corresponding unit details was resulting in an error.
Report	Issue	DEV-2003	Addressed an issue with Announcement recipient list report. This issue affected only large buildings with lots of emails. It resulted in a timeout error.
Registration	Issue	DEV-1980	Addressed an issue with new registration codes not created for users when process ownership functionality is used. This issue occurred when the new user was missing a valid email address.

**August 20, 2018 Release Notes**

<b>Related Feature</b>	<b>Change Type</b>	<b>Ref #</b>	<b>Release Notes</b>
<b>Registration</b>	<b>Issue</b>	<b>DEV-2002</b>	Addressed an issue with Photo capture functionality not working on the IPAD. This issue is now fixed on safari and chrome browsers on IPADs.
<b>Registration</b>	<b>Improvement</b>	<b>DEV-2013</b>	Addressed an issue on the registration unit page. This issue occurred when new users tried to register a vehicle without a province.
<b>Status certificate</b>	<b>Issue</b>	<b>DEV-1964</b>	Added the ability to add questions on the status certificate order page. Based on the feedback we received, we added the ability to ask 3 types of questions. Users can add Options, Text questions or Date based questions. Administrators can reach out to our support team to add new questions to the status certificate order page.
<b>Security and Concierge</b>	<b>Issue</b>	<b>DEV-2004</b>	Based on the client feedback, we added the package reference number information to all package emails sent by the system. Residents will now see the package reference number details on the emails and Text messages.
<b>Security and Concierge</b>	<b>Issue</b>	<b>DEV-1989</b>	Addressed an issue with search results giving an error for some users. This search related error occurred when users searched for certain terms with "- OR /" in the search terms.
