

The following changes were released to the live system on September 6, 2018. Please review the release notes below carefully as some changes impact the way the system works. If you have any questions or need clarification on any of the changes, please contact support at 416-961-7884, option 2, or email us at contact@condocontrolcentral.com.

Related Feature	Change Type	Ref #	Release Notes
Amenity Booking	Issue	DEV-2052	Addressed an issue with Amenity bookings with \$0 fees. Administrators experienced an issue when refunding the CCC and Stripe fees when the booking had no fee. In certain situations, the corporation account was charged a transaction cost. Going forward any Stripe accounts created after September 2017 will handle Stripe fee for \$0 bookings differently. The end user (residents) will not receive a refund for amenities without any booking fee.
Electronic Consent	Issue	DEV-2042	Added the ability to customize the electronic consent reminder pop up for the residents. Administrators can update the settings for the pop-up on the setup page > Workspace settings> Electronic consent > Edit settings> Configure reminder pop-up. The default pop-up reminder is set to 7 days. Administrators can choose between 0 -90 days for the pop configuration.
My Account	Issue	DEV-2057	Addressed an issue with updating contact information on My Account page. This issue occurred when the resident tried to add an offsite address without a city and province.
Purchase order	Issue	DEV-2039	Addressed an issue with Purchase Order. This issue occurred when an administrator tried updating an approved purchase order with an invoice number and amount.
Proxy	Issue	DEV-2041	Addressed an issue with the proxy email template. Before the change, all proxy emails sent to the residents had a default subject line. Based on the feedback from the users, we update the email templates to support the subject line used when creating the proxy.
Unit File	Issue	DEV-2038	Addressed an issue with the lease details section for renters and residents without a related unit. This issue occurred when the administrators tried to add lease information for a user without a unit related. Going forward, users without a unit related will not see the lease tab under the user page.
Report	Issue	DEV-1968	Addressed an issue with the amenity usage report. This issue occurred for workspaces where multiple amenities are linked between workspaces and had multiple options for individual amenities. The data would duplicate for the linked workspaces causing confusion.
Report	Issue	DEV-2025	Addressed an issue with the electronic consent report. The report is updated to show the address field. Users can customize the report by adding an on-site address or off-site address to the report.
Service request	Issue	DEV-1814	Addressed an issue with service request reminder emails for users who belonged to expired workspaces. This issue happened to users who are in multiple workspaces and had open service requests.
