

February 28, 2019 Release Notes

The following changes were released to the live system on February 28, 2019. Please review the release notes below carefully as some changes impact the way the system works. If you have any questions or need clarification on any of the changes, please contact support at 416-961-7884, option 2, or email us at contact@condocontrolcentral.com.

Related Feature	Change Type	Ref #	Release Notes
Security Patrol	Improvement	DEV-2023	Introduced security patrol feature. This new feature allows guards to patrol premises and scan checkpoints with a smartphone to record their security status. Our system send automated notifications to administrators about a successful patrol.
Announcement	Issue	DEV-2225	Performance improvements for Announcement list page. We have addressed slowness on the announcement list page.
Security & Concierge	Issue	DEV-2272	Performance improvement for security console search. We have addressed search for units with "-" or "/".
Proxy	Issue	DEV-2280	Addressed an issue with proxy link in email for outlook users. This issue happened when the users clicked on the create proxy link and were directed to the login page.
Custom Links	Issue	DEV-2289	Addressed an issue with broken custom links. This issue impacted any workspaces who had custom links added to the left hand menu. The issue was related to administrators using http links instead of https.
